

## **ABSTRACT OF THE DISCLOSURE**

An adhesive tape holder includes a sucker unit, a link, a blade seat, a guide rack, a support rack, and a rotation wheel. Thus, the adhesive tape holder is attached on a plane rigidly and stably, thereby facilitating the user operating 5 the adhesive tape holder so as to pull the adhesive tape outward easily and conveniently. In addition, the adhesive tape holder is available for a horizontal plane and a vertical plane, thereby facilitating the user operating the adhesive tape holder.
